Sinking of a II Bore well at Holalkere
===

I have the honour to forward herewith the file of correspondence ending with report No R2 P ~~R~~ 204/41-42 dated 26th - September 1942, from the Sub Division Officer, Davangere Sub Division ~~Office~~ on the above subject and to state as follows -

At present there is one bore well at Holalkere which is yielding 720 gallons of water per hour But this one well cannot meet the demand of the whole Town consisting of a population of 4200 and it is therefore proposed to sink another borewell estimated to cost Rs 1200/- The Council have resolved at their meeting dated 31st May 1942 that as the yield of water from the existing bore well is not sufficient a II bore well may be got dug at the cost of the Municipality but the Municipality has a closing balance of Rs 619/- (on 26-9-42) It has no investments and it is very - difficult even to pay for the normal items of expenditure The President of the Municipality and the Sub Division Officer, Davangere request that a sum of Rs 1000/- may be granted as a loan to be repaid in instalments But in view of the poor finances of the Municipality even this small amount of loan may be a burden to it In the circumstances, I request that sanction of Government may kindly be obtained for payment of the entire sum of Rs 1200/- as grant from Government in view of the dire need for water to the people This item has also been included in the proposals for the current year's grant
